October 6, 2026

Dear Hiring Manager,

I want the Lowboy Driver job at Titanium Excavation in Nampa. I want a local job moving equipment that gets me home every night, and this is that job.

I have a Class A CDL with a doubles/triples endorsement, and I have had it since 2016. I drove for Riverbrook Trucking from 2012 to 2019. I was the local driver there for a long time because of my speed tying down equipment and getting back on the road. I hauled all kinds of equipment, mostly Caterpillar, and also cranes, crushers, log loaders, and yarders. I loaded and unloaded all of it myself. I ran regional too, and I had no accidents.

I care about the details. I make sure the equipment, the trailer, and the truck do not get scratched or damaged by tie-downs or anything else. I keep things clean and organized, because drivers who stay organized get things done faster. I believe proper preparation prevents poor performance. I prep my trailer and tools the night before, and I preview the route, so I can hit the ground running. I like figuring out how to do the work faster and safer, and get more done in a day.

I left full-time driving in 2019 for engineering and security work at Nike, and I have kept my license and medical card current. I am ready to get back in a truck, and I want this one.

Thank you for your time.
